OXNEAD HALL

Key points

Music and entertainment

• Acoustic music is permitted outside up until 5pm but amplified music is not allowed outside. In accordance with our entertainment licence, a sound limiter is installed inside the Great Barn and is set at 92 decibels.

• Evening music can only be in the Great Barn and not in the Long Room and smoke, fog or dry ice machines are not permitted at the venue - please inform your chosen band or DJ of this.

• Please ensure that any external contractors are aware the noise limiter is set at 92 decibels and that they have confirmed to you that they can and will play through
the system. Please note that a booking at Oxnead Hall assumes that you have agreed this condition.

• Your band or disco contractors should be advised that the music must finish at midnight.

• Last orders are at 11.50pm and the bar closes at midnight.

• Oxnead Hall closes at midnight, please advise your guests they must book a taxi before the wedding day as we don't have Uber in Norfolk!

• Due to fire regulations and our license, all doors into the Great Barn and Long Room close automatically and cannot be propped open.

• To maintain high standards and keep the barns looking their very best the team quietly begins the clearing up process just before midnight.

• Most important of all is that you; your family and friends have a wonderful wedding. Should you have any questions please contact your Oxnead events team. There is always someone available to offer help and advice.
